INNOCENT NIGHTMARE

17 Years in Prison,
Exonerated by Modern DNA

Free keynote talk & book signing

November 3, 2017 at 12 noon
Allegheny County Courthouse
Room 313, Pittsburgh PA

Roosevelt Glenn served over 16 years in prison for a crime he did not commit. His co-defendant Darryl Pinkins served 24. DNA mixture evidence should have freed them 15 years ago, but failed interpretation methods couldn't find the exculpatory facts. Last year, *pro bono* TrueAllele® computing successfully exonerated these innocent men.

CBS News 48 Hours told their improbable story in "Guilty Until Proven Innocent." Keynote speaker Glenn will talk about his experience, and sign copies of his book, *Innocent Nightmare*.
